Abstract

PT. Arief Bijaksana Law Corporation is a company that is steeped in the field of Legal Services or is a Legal Consultant who handles all matters of criminal and civil cases handled by lawyers/advocates, this office is located at Ruko Mega Legenda Blok E1 number 23-24, Batam, Islands Riau, Indonesia. The main topic that will be discussed in this practical work report is the process/mechanism in legal assistance for criminal cases at the advocate's office at PT. Arief Bijaksana Law Corporation with the research method carried out to complete the report data, then it is done by going directly to the field and the data collection method is through observation in order to obtain the data to be achieved.

Keywords: *Mechanism, Legal Assistance, Criminal.*

Introduction

Criminal law is a regulation that determines prohibitions in criminal acts and determines what sanctions can be delegated to what is done. Indonesia is a state of law, in this case it recognizes and protects the human rights of every individual regardless of their background, so that everyone has the right to be treated equally before the law. So anyone who faces a court trial is also entitled to legal assistance or legal assistance with whatever the case. The purpose of this Community Service activity is to find out from the mechanism in criminal law assistance at the Arief Bijaksana Law Corporation Office. Which in this office only a few handle criminal cases, as well as conduct online hearings at the Batam District Attorney's Office.

Method

The method in implementing this Community Service Activity uses Implementation methods, Implementation methods is an action or implementation of a plan that has been carefully and in detail. This implementation is usually completed once it is considered permanent. This implementation is not only an activity, but an activity that is planned and carried out seriously with reference to certain norms to achieve the objectives of the activity. Therefore, execution does not stand alone but is influenced by subsequent objects. To continue research so that practical work at the office of an advocate Arief Bijaksana Law Corporation can be completed, the author

uses research / observations / interviews / implementation to obtain information from the parties concerned.

Discussion

In the Community Service activity in this discussion, regarding the mechanism for criminal law assistance at the Arief Bijaksana Law Corporation office, the trial is conducted online at the Batam District Attorney's office.

Picture 1

This picture was taken on 27 September 2021 during the first trial of the vaccine data falsification case in Temenggung Abdul Jamal carried out by Rahmat Ramadhan Bin Sukardi, who at that time he was present on the prosecutor's screen (Online). When conducting an online trial, it also has a weakness where the weakness is that it is not very effective because it is not very clear what the Defendant's delivery is due to being too fussy when explaining, the Defendant is gathered into one screen when interrogated by the prosecutor, judge and defense attorney.

Conclusion

The achievement of the target on the Practical Work carried out by the author is that the author has seen and understood the mechanism of criminal law assistance at the office even though it is done online due to the covid-19 pandemic. There are benefits that are felt after providing legal assistance so that they can better understand and make a provision in the future if you want to become a lawyer. Thus, a big thank you to all those who have helped this Community Service activity so that the author can understand the mechanism.
